SREEPADHAM INDUSTRIES

We are pleased to introduce ourselves as one of the leading electroplaters in the field of Electro Plating & Metal Finishing of various types of Zinc & Zinc alloy Platings, with TRIVALENT PASSIVATIONS. We have our own factory having 5000 sq.ft of building area and 1000 sq.ft of free area with 90 HP.Power.

We had started our Plating unit on a small scale in a rented shed in the year 2000 and we have since grown due to the best customer satisfaction, we have been giving and meet the Plating standard specifications as per the customer's specification. Now we have constructed our own building with an office, spacious Plating shop floor, and separate rooms for the inward materials, & outward finished materials stores with areas allotted. We have a systematic Industrial wastewater treatment Plant for Pollution control.

We have started our Plating activity in our New plating shop on 25th June 2007 to serve our esteemed customers in and around Chennai. Now we come under SSI Industries and our SSI Registration No. is 33 001 11 04064 and also we would like to state that we are an ISO 9001-2015 company approved by BSI Management systems and our ISO certification No. FM 532439 valid till 3.12.2019 and also we are having permanent Consent Order from Tamilnadu Pollution Control Board vide consent order No. 170819269615, dt. 26.06.2017 for WATER Pollution and 170829269615, dt.26.06.2017 for AIR Pollution. We have renewed our validity up to 31.03.2022 for both Air and Water.

As regards administration to sales and accounts we have got equipped with most updated computerised information technology with a highly qualified and well trained staff working to meet the standards specifications as per ISO – 9001-2015.

As for as plating Department we have got well trained persons to do the job work according to the specification which have been given. We are ready to work two shifts also to meet the requirement of our customer.

Our Quality Policy

Committed to offer cost effective Quality products supplying to customer On time, every time ,to the utmost satisfaction of the customer on continual improvement basis

Our Objective

To monitor customer satisfaction level

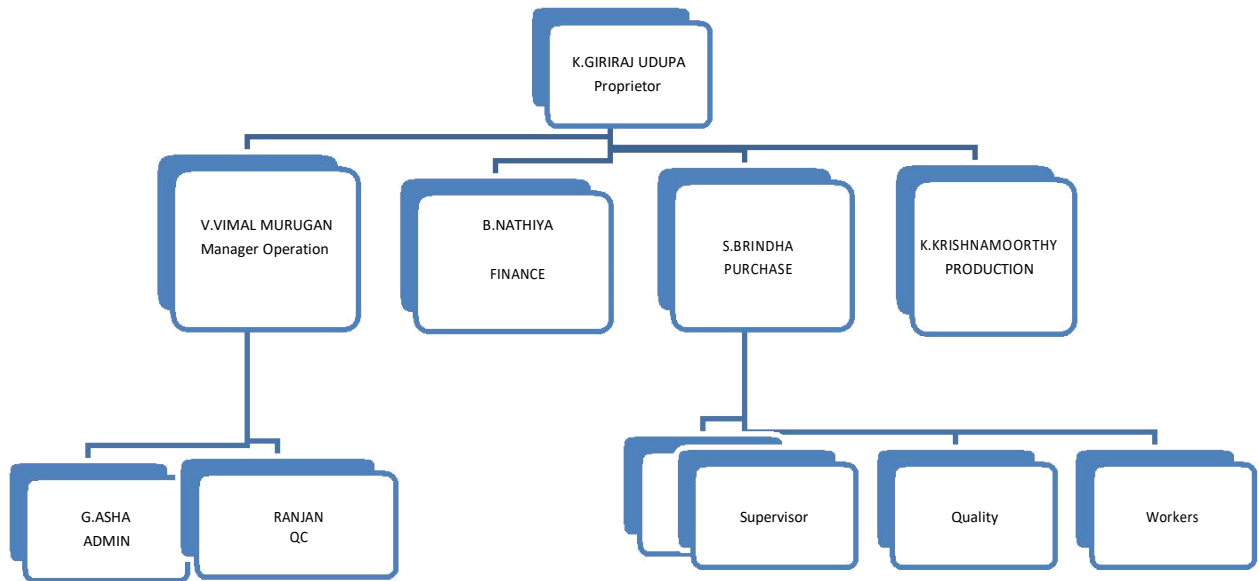

▶ *Aim for zero defect in manufacturing*

▶ *Aim for Zero Customer Complaint*

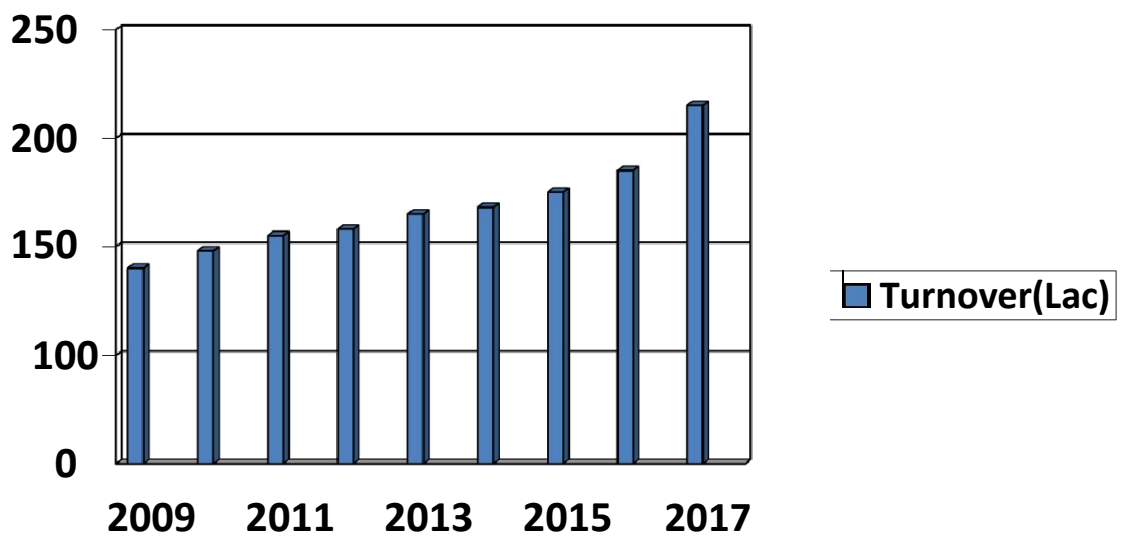

▶ *Improve Sales*

Improve Overall Efficiency

PLATING BATH

TIMER WITH BUZZER

We have a good QC/ QA Department to check the Micron – Thickness of Zinc plated Hexavalent & Trivalent Passivated components of our customer using ELEKTROPHYSIK MINITEST - 650 etc., Micron Meter. Also, we have our own Salt Spray Chamber to carry out Salt Spray Test.

We have Chiller Plant also for Acid Zinc for uniform bright coating purpose.

We have 100 KV of Generator to meet the power problems.

We have good team of experts to start any type of plating or coating process. As such if our customer needs any type of plating in bulk quantity regularly we are ready to start new plating bath with either barrel or vat to suite the customer's requirements and deliver it on time.

OUR FUTURE PLANS:

 *Zinc Iron Plating with Trivalent Passivations* 

Zinc Nickel Plating with Trivalent Passivations
